THE COUNTDOWN CONTINUES

. LATEST UPDATE ON OUR NEW HOME.

Now that the dry spell has broken, the grass pitches have shown a great improvement and look on target for Sept/Oct. This week we have been very busy moving some of our equipment that will be needed at our new home.

This afternoon (Friday) the Executive Committee were on site and had concerns about the amount of work still outstanding. We had a meeting with the contractors and Hounslow Council where we voiced our concerns that the facility would not be ready on time. As a result of this meeting it has been decided to delay our move to the weekend of September 8th & 9th. This decision was not taken lightly, but we were left with no option due to the non completion of the facilities..

We realise that this is a frustrating situation but we feel that given the circumstances we could not risk an opening on the first weekend in September when there is a high possibility of additional delays.

Our last activity at MacFarlane Lane will now be on Sunday 9th September with us trading at our new home on Monday 10th September.

The Executive Committee along with the logistic and marketing teams have been working hard to ensure that everything was in place for our move this week but regrettably for reasons that were not within our control our move date will have to slip. We share everybody's disappointment and ask all our members to remain patient. The time will pass quickly and we will soon be in our new amazing home albeit 2 weeks late.

The Executive Committee
